

ANNE BAHRENSCHEER

Associate Professor of Pedagogy (PU) Coordinator, consultant og educator at Videreuddannelsen (VU) and Pædagoguddannelsen (PU) and researcher at University College Copenhagen (KP).

Through scientific research projects, development and publications, I have established great knowledge within my professional field; sport, movement, well-being and health. My competencies are put in play, within a broad perspective, in relation to multidisciplinary collaboration, project management and through my area of responsibilities and activities at University College Copenhagen.

Mathilde Sederberg.

Associate Professor of Pedagogy (PU), Knowledge Officer in the research department at Copenhagen University Of Copenhagen (former programme Health in the north). Lecturer in continuing education (VU) and initial training (GU).

Through teaching, research projects, development work and publications, I have accumulated a great deal of knowledge in my professional field; sport, movement, health and well-being. I helped start the research department at KP (formerly UCC), where I participated in projects within interprofessional cooperation and inclusion in the diversity and social innovation venture. My competences are also expressed in the development of cross-professional initiatives and projects within health and movement on Campus North Sealand.
